PAGE 1 OF 1

**Standard:**

All dishwashers should be set up and ready for operation according to the manufacturers instructions for each machine.

**Procedures:**

1. Lift doors of machine to check machine is clean and correctly put back together.
2. Close off all drain valves and fill machine.
3. When correct level of water is achieved in both tanks, turn off "fill" switch.
4. Turn on heater switch and check chemical containers. Replace on top up as necessary.
5. Check detergent dispenser by confirming:
  - Green light is on when dispenser is feeding detergent into machine
  - Red light - detergent bottle is empty
6. Close doors of machine before commencing dish wash operations.
7. Check machine is maintaining correct temperatures.
  - Wash/rinse 65-75 Celsius
  - Final rinse 85-90 Celsius
8. Report any malfunction to supervisor immediately.

**标准:**

所有洗碗机要按要求在工作前准备好。

**程序:**

1. 打开机门检查机器是否干净，配置是否齐全。
2. 关闭排水阀然后加水。
3. 待水箱里的水达到正常位置后关闭进水阀。
4. 打开加热器并检查清洁剂是否充足，如有必要添加清洁剂。
5. 检查分配器以确认：
  - 绿灯亮时表示清洁剂分配正常
  - 红灯亮时表示要添加清洁剂
6. 开始操作前要关闭机门。
7. 检查机器温度：
  - 洗涤温度摄氏65 --- 75度
  - 过水温度摄氏85 --- 90度
8. 任何异常、故障立即报告。
