

RESOURCE LIBRARY - STEWARDING  
Hand Polishing of Silverware 银器抛光

CODE: 03.16.061

EDITI  
ON: 1

PAGE 1 OF 1

**Standard:**

Hand polishing of silver ware must be carried out daily and required any time. Two different ways is required in different condition.

**Procedures:**

1. Use liquid chemical polish
  - Collect all silverware needs to be polished together.
  - Prepare a plastic container for soaking and gloves as well.
  - Pour chemical into container.
  - Soak silverware in chemical:
    - ◆ Soak bigger one by one and small one can soak more but make sure all surface must be covered.
    - ◆ Bigger one must be unpicked before soaking.
    - ◆ Do not soak over 6 seconds one time.
  - After soaking rinse with running water immediately and check result.
  - Repeat above procedure if required.
  - Run through dish wash machine and wipe dry before putting away into storage.
  - Unpick ware must reconnect before storage.
2. Use solid chemical
  - Collect all silverware needs to be polished together.
  - Use a sponge to apply silver foam on silver ware.
  - Ensure all surfaces have been covered and polished.
  - Rinse with running water and check results.
  - Repeat procedure if required.
  - Run through dish wash machine and wipe dry before putting away into storage.

**标准:**

每天都要给银器抛光或在任何需求的时候。在不同的情况下使用不同的抛光方法。

**程序:**

1. 使用液体化学药品
  - 收集所有要抛光的银器。
  - 准备一个塑料的容器和手套。
  - 将药品倒入容器。
  - 在药品中浸泡:
    - ◆ 大的器皿要一个一个浸泡，小的可以多放一些，但必须确保器皿表面都能够浸泡到。
    - ◆ 大的器皿在浸泡前要拆开。
    - ◆ 浸泡时间不要超过6 秒钟。
  - 用活水立即冲洗并检查结果。
  - 若需要，重复以上程序。
  - 放入洗碗机内清洗，擦干后方可存放。
  - 拆开的器皿在存放前必须在连接好。
2. 使用固体化学药品
  - 收集所有要抛光的银器。
  - 用海绵配合抛光剂擦拭银器表面。
  - 确保所用表面都要涂抹到。
  - 用活水冲洗并检查结果。
  - 若需要，重复以上程序。
  - 放入洗碗机内清洗，擦干后方可存放。
